

China Medical University

Top 500 World University: Excelling in Chinese and Western Medicine

China Medical University (CMU) was initially established as China Medical College in 1958 and upgraded into China Medical University in 2003. It is the very first academic institution in Taiwan where Chinese Medicine and Pharmacy degree programs are provided. The university has two major campuses, Taichung (including Wuchuan and Ankang) and Beigang.

With state-of-art research laboratories, excellent teaching facilities, two comprehensive teaching hospitals, and a strong staff commitment to students, CMU has steadily grown into a prestigious institute and one of the top 500 universities in the world, excelling in both Chinese and Western Medicine.
