

## **National Pingtung University of Science and Technology**

*NPUST is a Paradigmatic University of Technology in Taiwan*

National Pingtung University of Science and Technology (PingTech) was founded in 1924 and has the biggest campus in all of Taiwan (occupying nearly 300 hectares). This large and beautiful campus has allowed it to enjoy the reputation of “National Park University” and provided a superb environment to specialize in Tropical Agriculture. PingTech is home to many centers that can be found nowhere else in Taiwan. Currently PingTech has a total of 27 departments and 36 graduate institutes, offering Bachelor’s and Master’s degrees, as well as 8 Doctoral programs. Its departments and graduate institutes are distributed among six colleges, including: Agriculture, Engineering, Management, Humanities and Social Sciences, Veterinary Medicine and International Studies. PingTech is also among the top 15 universities for total number of publications and frequency of citations in the WOS journals in the fields of Agriculture Sciences, Ecology and Environment Sciences. Additionally, PingTech has established relationships with more than 163 world-renowned universities across the globe, earning a sterling reputation both nationally and internationally for its strengths in Tropical Agriculture, Green Technology, and Biotechnology as well as other areas of research. In 2013, PingTech was named one of the Top 3 Paradigmatic Universities of Technology by Taiwan’s Ministry of Education, an honor which has added new impetus to its determination to reach the long-term goal of positioning itself as one of the world’s leading academic institutions. NPUST welcomes international students to enroll in its English Programs or any other post-undergraduate programmes which offer bilingual (English and Mandarin) instruction.

### **International College**

1. Department of Tropical Agriculture and International Cooperation /Bachelor; Master; PhD. (DTAIC)
2. International Master Program in Food Science (IMAFS)
3. International Master Program in Soil and Water Engineering (IMPSWE)

\* NPUST also offers bilingual (English and Mandarin) courses in other areas of study.
