

National Taiwan University

National Taiwan University (NTU) is Taiwan's Flagship Research Institution

Committed to excellence and social responsibility since its foundation in 1928, the University has played a constructive role in Taiwan's remarkable transformation into a highly competitive economy and modern society.

Experience of Greater China is a considerable asset for the people of today. NTU is ranked 1st in the Chinese-speaking world (ARWU 2013) and 38th worldwide for its academic reputation (QS 2013). It has the highest research budget in Taiwan and the greatest number of technology transfers and industrial partnerships.

International research centers are set up in a range of breakthrough areas, offering a stimulating, intellectually rigorous environment in which to develop innovative research with significant impact. The University's vision embraces strong knowledge, strong techniques and strong elites, guided by independent thought and a pioneering spirit of enterprise.
