

Tunghai University

Founded in 1955, Tunghai University has been one of Taiwan's educational pioneers for more than five decades. The university has grown into eight colleges (Agriculture, Arts, Engineering, Fine Arts & Creative Design, Management, Science, Social Sciences, and Law), which currently offers 34 undergraduate majors, 47 master degree programs, and 14 doctoral programs. THU is a liberal arts education based and sustainability focused university. The University has honored the ideals of holistic education viewing development of character, appreciation of arts, and scholarly sophistication as integral parts of the well-rounded university education. The highly reputable Po-ya School at THU is a residential college concentrated on liberal arts education. The major focus of research is global research and education on the environment and society (GREENS), including biodiversity and interface design between humans and the environment. Research is also heavily conducted in the fields of architecture, design and management

1. International Business Administration Program for Bachelor Degree
2. International Architectural Design One-Year Master's program for Post-Professional Degree
