設計者與藝術創作者喜愛使用的媒材之一。筆者近年受學校栽培，致力於臺灣與亞洲紙質與應用和傳統造紙材料與技術研究，目的希望促成紙的文化資產研究，並且促進學生設計能量。

The UNESCO has made valuable contributions to the preservation of both tangible and intangible cultural heritage in recent years due to the fact that paper has played a crucial role in the history of human civilization and been viewed as one of the most favored materials among today's industrial designers and paper artists. This course is dedicated to the study of papermaking in terms of 1) its applications in Taiwan as well as other areas in Asia, and 2) research on traditional materials and technology, so as to not only encourage related research but also promote the power of design in the students.
