

SATU Joint Research Scheme Policy

OVERVIEW

In order to provide the interchange platform to integrate resources and facilitate mutual research cooperation among SATU member universities, SATU International Secretariat launches the SATU Joint Research Scheme.

The SATU Joint Research Scheme initiates the engagement and mutual cooperation of researchers within the SATU member universities through integration of academic resources and linkage of research interests among researchers of the region. The aim of the Scheme is to increase the quality, quantity and profile of SATU research cooperation.

The SATU Joint Research Scheme serves as a platform to connect scholars who share similar research interests and integrate resources to support the academic research exchanges within SATU member universities.

Activities such as seminars and workshops may be incorporated with the Presidents' Forum to present the work of the joint research teams under the Scheme, and to promote the awareness of and involvement in collaborative opportunities in the region.

FUNDING AND SCHEME

Host University shall provide funds to implement the Scheme. Once sufficient SATU membership fees are collected from member universities, the Joint Research Scheme may be partially sponsored from the collected fees. Topics including Science, Engineering, Humanity, Social Science, Cultural Challenges in Southeastern Asia or Multi-Disciplinary research could work. Each project consists of a team of researchers while hosting university faculty acts as the principal investigator to the project and participating scholars of SATU member universities act as co-principal investigators (Co-PIs). Symposium like mini workshops or conferences can be held to present the result of Joint

Research Schemes. Host university may fund Co-PIs, whose institutions are outside of hosting country, the accommodation and economy-class roundtrip airfare for a project presentation visit to hosting university. Approximately three Co-PIs from different university under each project will receive the grants.

ELIGIBILITY

Investigators must be working at SATU member universities and have received the doctoral degree to be qualified for the grant. Any doctoral students from member universities with his/her own financial support is very welcome to participate in the joint research scheme. All participants must be recommended by SATU member universities and the applications must be submitted to satu@conf.ncku.edu.tw. Applications sent by individuals will not be accepted.
